Heat with Corn!

Burn Shelled Corn In This Biomass Furnace
A BETTER ALTERNATIVE

The corn burning furnace has many advantages over wood and coal heat. The large storage bin holds up to 14 bushels of fuel, which is automatically fed into the combustion chamber as needed. There's no need to load the furnace several times a day. The use of corn also eliminates the bark mess, insects, splinters, and handling problems connected with the use of wood fuel, and the dust and dirt from coal. UL Approved.

Combination Hoof Care and Vet Chute

This highly versatile equipment can be used to secure a cow safely and efficiently for foot care or veterinary services.

Side panels and gates easily replace hoof care accessories to create a vet chute where almost any common vet procedure can be performed.

All steel parts are powder coated using the PBZ five-step process.
