**Dry and Dusty for the Northeast**

This is what the headline could read for the upcoming growing season in that event **DOEBLER'S** is offering its own supplemental insurance in the form of **DROUGHT TOLERANT HYBRID CORN** to help you guard against loss. Let's take a look

- |  |  |
|--|--|
| <p><b>82XP and 82XPRR</b> (Roundup Ready®) @ 118 days RM are highlighted for their outstanding drought tolerance. Both are effective as dual purpose hybrids (grain and silage) with good test weight.</p> | <p><b>469XP and 469XRR</b> (Roundup Ready®) @ 97 days RM are BIG hybrids with excellent grain and silage yields as well as early vigor. They display good late season appearance &amp; rapid dry down.</p> |
| <p><b>75X2, 75X2RR</b> (Roundup Ready®) and <b>75X2CL</b> (Clearfield®) @ 116 days RM are great performers in all types of conditions. Attractive, dark green plants, they're ideal for ear picking.</p>   | <p><b>383X</b> @ 87 days RM has great stalks, consistently high yields, good late season intactness and does well under stress. Excellent test weight and early vigor make this a great early hybrid.</p>  |
| <p><b>636XY and 636XCL</b> (Clearfield®) @ 109 days RM are two of Doebler's most popular hybrids. Drought tolerance and consistent yield are why!</p>  | <p><b>296XP</b> @ 85 days RM is another of Doebler's early hybrids with outstanding yields. Great stalks &amp; early vigor enhance its performance.</p>  |

All of the above hybrid recommendations work best in moderate populations

Take advantage of Doebler's 4% CASH DISCOUNT\* or its Farm Plan® Option 4\*. Order before March 23.
