

Need a cover?

WE COVER!

The Regal Series...Offering Advantages

We Cover Building Systems is a specialty company providing a superior building solution. As we all know, the choice of a building style is not easily made. We know that we want something that fits our needs and satisfies our quest for lasting quality. The Regal Series Buildings come loaded with advantages you will need and appreciate on your property.

Engineered Steel Arches...are a specialty of the Regal Series. They are custom engineered to meet your specifications and designed to be economical.

Hot-Dipped Galvanizing...all of our trusses are dipped inside and out to ensure top quality weld protection from corrosion.

Sectional Roof Covering...each truss section has its own fabric strip. Since an individual section can be replaced, repairs become economical. UV inhibitors in the fabric bring years of protection to your structure.

Call us today for your next building solution!

A WIDE RANGE OF APPLICATIONS!

SALT AND SAND STORAGE MUNICIPAL

COMMERCIAL - GRAIN STORAGE

CATTLE-RIDING ARENA

We knew that you would want to meet many different needs with the new building you are designing. So, we designed the Regal Series Buildings with the adaptability to service a wide range of applications.

Site Preparation

Truss Delivery

Cranes Erecting Trusses

Livestock housing...Dairy Municipal Storage...Salt, cattle, hogs, sheep, and many other animals find a comfortable home in our buildings.

Grain and fertilizer storage...You will need a storage solution for that extra grain this fall. And then, when the grain is gone, park your valuable machinery under a dry roof.

Commercial fertilizer and grain distributors find that our buildings provide an economical place to store their gigantic piles of commodities.

From Start to Finish . . .

Finishing Roof Construction and Fabric Tightening

... we'll be there to help!
