

1 FARM EQUIPMENT

NEW! Vermeer 554XL Baler:
This is the baler that loves to eat hay!

XL Series
Cut-Out Clutch Protection
No more burnt or hot discs to wrestle with. Greater protection for those times when your baler's pulling harder on the outside rows, the tractor's overpowered, or you accidentally overfill when trying to bale that last strip of hay.

Here's why:

- 5-bar pickup handles bigger windrows, faster speeds.
- Simple, horizontal bale-starting system is designed for fast starts.
- Bottom drum design lets you pull in hay faster, often allowing you to drive a full gear faster.
- Best HaySaver Wheels in the field
- Up to 1200 lbs. in a single 65" dia. x 48" wide package; 2000 lb. capacity with silage baler option.
- Silage option lets you bale wet or dry without changing a thing
- Makes bales 17% larger* than a standard 5' dia. x 4' wide baler at virtually the same price! **

* determined by comparing volume measurement of a standard 60" dia. x 48" wide bale versus a 65" dia. x 48" wide Vermeer bale
** Price comparison is based on published list prices (1/2000) between Vermeer 554XL Series Baler and other 5 x 4 competitive round baler models

Check it out!
17%
more bale size than standard 5' x 4' bales

"I'm impressed with the heavy construction of the Roto Mix mixer and the accuracy of the electronic scale."

- Joe Kauffman, Mill Manager, G&G Feed, Manheim, PA

G&G Feed, a commercial feed mill, needed a way to mix rations better and faster. Some mixes were taking up to 2 hours!

In 1999 the company bought a 420-12 Roto Mix mixer from Lapp's Barn Equipment. Now those rations take only minutes. And according to mill manager Joe Kauffman, "a 1,000 lb. mix for calves gets mixed as well as a full load of 8,000 lbs. for a larger dairy."

G&G specializes in mixing custom dairy rations for dairies with 115 cows and more. They average 200 tons of custom mixes per week. Any given mix can consist of up to 15 different ingredients plus 100 lbs. of molasses per ton.

If you have any questions about how well the Roto Mix mixer can mix feed, call Joe at G&G Feed, Manheim, PA (717) 665-6122. A good time to call Joe is before 9:00 a.m.
