Farming Forecast

About 10-12 hours worth of sun on Sunday will allow temperatures to warm from previous days. The warming trend is expected to continue as a stiff south to southwesterly wind sets up and brings warmer air into the area, as well as clouds on Monday and Tuesday. Tuesday may bring showers to the area. A shower or thunderstorm is possible Wednesday.

Regional Forecast

Shown is Sunday's weather. Temperatures are highs and lows for the day.

HAKARI ALASKA BROMEGRASS

Great Drought Tolerance! Fast Establishment

Hakari is a new type of Brome with very fast establishment, excellent drought tolerance, and very high protein and digestibility. Hakari is easy to mow and dry and not as sod forming as smooth brome. Very late maturing. Hakari's high palatability makes it good for grazing together with Baralfa 42-IQ in drought prone fields.

IMPORTANT: FOR LONG-TERM STAND PERSISTANCE LEAVE A 3 INCH OR MORE STUBBLE.

Forage Analysis at Approx. 8"

	G.P.	N.E.L. (In Situ)
BG 34 Ryegrass	29.2	96
Hakari	29.9	93
Baridana Orchardgrass	29.5	83

Cows Love It & Milk Well On It

HAKARI BROME MAKES A GREAT COMPANION FOR ALFALFA

as shown in this photo. Seed at 6-8 lbs. in new alfalfa stands, or no-till 20 lbs. to rejuvenate old stands. For straight stands, seed 35-40 lbs.

KING'S AGRISEEDS

Helping the family farm prosper by specializing in high quality forages and grazing since 1993.
