

31 NOTICE

DRUMORE TOWNSHIP SUPERVISORS

The Board of Drumore Township Supervisors is accepting bids for sale to the highest bidder for a new 16'x7' precast concrete box culvert. Sealed bids will be received on Thursday June 6, 2002 at 7:30 p.m. Contact Harold G. Long, Roadmaster, at 717-284-3186 for more information. Bids must be presented in an envelope marked "Concrete Box Culvert - June 6, 2002".

Anna B. Morris, Secretary
Drumore Township Supervisors

INVITATION FOR BIDS

The Lancaster Conservation District is requesting bids for the construction of an Agricultural Waste Management System in Ephrata Township. The project includes a storage structure, grassed waterway and pipe work, to be funded in part by the Chesapeake Bay Program.

Prospective contractors can receive a bid package which contains instructions to bidders, the Plans for the Project, and a Bid Sheet. Construction standards and specifications are contained in the Contractor's Handbook, Pennsylvania Chesapeake Bay Program, dated February 2002. These are to be considered part of the contract package, and need to be used during project installation.

Small and minority businesses and women's business enterprises are encouraged to respond to this invitation for bids.

The site showing will take place on **Wednesday, May 8, 9:00 A.M.** at the project sites. Sealed bids will be accepted until the public bid opening in the Conservation District Office in the Farm & Home Center on **Wednesday, May 22, 9:00 A.M.**

Bid packages and/or the Contractor's Handbook will be available at site showings or by contacting the Lancaster County Conservation District office in room 6 of the Farm & Home Center at

1383 Arcadia Road
Lancaster, PA 17601
(717) 299-5361 Ext. 5

SEWAGE TREATMENT SYSTEM FOR SALE
Unused FAST (Fixed Activated Sludge Treatment) System: Biologically oxidizes organic matter to produce a clear odorless effluent which is then disinfected by an ultraviolet sterilizer. This system was originally designed to be used onboard ships but is also usable on land. It is sized for approximately 125 people or 7000 gallons per day. The effluent could be directed toward a stream, or used for watering. Here is how it works:
Arrangement This system includes two pumps, a Roots blower, UV Sterilizer, diverter valve, three float switches, control panel and remote alarm panel. All equipment except the remote alarm panel is assembled on the unit.
The tank is approx. 16' long x 8' wide x 9 ft high. Drawings and more detailed information is available. Although the system is unused and never run, bearings and seals in the motors may have to be replaced due to long storage. The original price was approx. \$55,000.
Our price is \$18,000.
