**Custom Manure Hauling**  
Reduced compaction provides you with healthier crops and higher yields. We offer the flotation of a farm tractor & spreader or try our new truck tractor & trailer tanker. Combine the road speed of a truck (a tractor's greatest limitation) with nearly the same flotation as a tractor & spreader. It will go anywhere our tractor will.  
**Custom Tillage**  
We also offer a deep tillage service if you find yourself having to do something about compacted ground. We have a 9-tooth Sunflower chisel fitted with 5 chisel teeth and 4 ripper Shanks. You have the choice of 4 inch twisted shovels for good residue coverage or 2 inch straight points for less coverage. All of our customers who have had used this have been very pleased with the results.
