When your operation needs a small rectangular baler you can count on for rugged, dependable performance, choose a New Idea 7200 Series baler. All four models incorporate true centerline design, so hay flows gently, consistently and efficiently, reducing leaf loss and crop damage. A prepacker chamber behind the pickup ensures more uniform bale density and consistent flake size. So every 14" x 18" or 16" x 18" bale is built solid, square shouldered — and packed with value.
