

Cedar Lane Farm

Milk 'n Honey Genetics
Oldwick, NJ

Host of this year's National Holstein Convention picnic

General Manager Howard Hoffman appreciates the 81x19 Slurrystore® System installed at Cedar Lane in 1999, the first green Slurrystore ever built. It puts him in control of the nutrient management program, allowing slurry to be applied to the fields at the most opportune time, balancing the nutrients needed for each field individually. Safety and expandability, along with a choice of colors, were major factors in Cedar Lane's choice of a Slurrystore System to manage waste.

Herdsmen Russell Subject with
SFL Factor Rozi-Red-ET, projected at
50,008 lbs. milk, 4.8% B.F., 305 days
