Northeast Broiler Fryer Parts Part I

ATLANTA, GA.

July 11, 2002

Report Supplied By USDA

Trucklot buying activity remained very light as dealers continued with tightly balanced floorstocks and saw no need to extend inventories significantly approaching the weekend. In addition, the curtailing of regularly committed product was occasionally noted as an unsettled trade sentiment permeated throughout the market. Offerings of boneless-skinless breasts were readily available and bone-in breasts were fully sufficient.

Boneless-skinless thigh meat was ample and sharply discounted. Tenderloins were fully sufficient. The balance of cuts ranged adequate to fully adequate.

The market tone was weak on boneless-skinless thigh meat, barely steady on boneless-skinless breasts and tenderloins, cautiously steady on bone-in breasts and no better than steady on the balance of cuts.
