

“Quality was important to us.”

“Penn Jersey did an excellent job erecting our Slurrystore®. And less than two weeks after the project started, we were pumping manure!”

Hi-Aloft Acres
Muncy, PA

According to Jerm Snyder, “Safety was the major reason that my wife and I purchased a Slurrystore structure. We felt that a Slurrystore was a clean way to store manure and that it added to the beauty of our farm. The quality workmanship and honesty of Penn Jersey really appealed to us, too.”

“The Side-mount Pump and Center Agitation System on the Slurrystore was the best agitation system out there. That quality was important to us. We also thought the Slurrystore’s expandability was an important feature of a manure system.”
