**INTRODUCING THE WHITE 8000 SERIES PLANTERS**

You've done your research, prepared your field, and picked the perfect seed variety. Now plant that perfect row, with the 8000 Series planter from White. With 49 models to match your needs, they're packed with features that save time and plant 4 to 31 rows of corn or soybeans with unmatched precision. The 8000 Series features an improved seed meter design for outstanding accuracy with a wider variety of seed sizes. And standard walking beam gauge wheels along with increased planting depth range of 1/2 inch to 4 inches give superior depth control over larger surface irregularities. Select models feature "on-the-go" seed rate adjustment from your tractor cab. FlexFrame designs range from 30' to 60' for an "acre-eater" performance from one end of your field to the other.

It's time to plant the perfect row. Stop by your White Planter Dealer today and get it right with WHITE.
