Frozen Eggs**

ATLANTA, GA.
Sept. 27, 2001

Report Supplied By USDA

Mostly prices were slightly higher on sugar yolk, unchanged to slightly lower on salt yolk, and unchanged on the balance of products when compared to previous week's trading. The market tone was somewhat unsettled on salt yolks, but generally unstayed on the remainder of items. Demand was light to moderate. Offerings were adequate to fully adequate on whole and usually adequate on other items. Liquid and frozen eggs (ingredients included) processed under federal inspection in the Eastern region for the week ending September 21, 2002 were 2% lower than the previous week and 5% less than a year ago.

Economic Irrigation: With low input pressure requirements and constant speed irrigation, FERBO Travelers remain the leaders in low cost automatic irrigation. There isn't another traveler available that is simpler to operate or less expensive to maintain.

Waste Water Disposal: Our engine driven travelers are the simplest and most accurate on the market. Our computer controlled speed regulation ensures 99% accuracy to meet Federal/State design criteria while our simple yet efficient engine/gearbox drive ensures low maintenance.

Plus: We manufacture and market a complete line of. Slurry pump, pump fittings, irrigation pumps, wheel row, giant sprinklers, hand move, trickle center pivots.

ROVATTI SLURRY PTO DRIVE PUMPS

Rovatti TL slurry pumps are high-pressure slurry pumps with a unique "bolt on" chopper system

The standard pump features a high efficiency open-vane impeller with an interchangeable wear ring and fixed cutting blade to handle all but the very toughest of straw, hay or other difficult residuals. For these conditions, the chopper unit can be simply bolted to the pump where it is driven by the existing pump shaft, enabling it to handle virtually any waste products requiring chopping.

A number of additional features make these the most versatile and reliable units on the market:

- Special permanently lubricated mechanical seal for longer life
- Over-sized bearings
- Lubricated chopper shaft bearings
- Chopper shaft shear-pin to reduce risk of damage to the shaft and impeller
- A range of four tractor pto pumps and four bare shaft pumps with flows from 105-1000 gpm
- Replaceable wear ring
- 540 rpm or 1000 rpm speeds
- Finest grade cast iron for high efficiency
- Unique water-cooled gearbox for extended gear life.

The pump is mounted on a heavy-duty wheeled cart with pto shaft, 6" quick-action suction fittings and 4" discharge fittings as standard.
