# It's Time To Lime!

The Stoltzfus Wet Lime Spreader is likely the most powerful spreader of its kind on the market today. You see, we've been building them since 1945, and farmers are still using Stoltzfus Wet Lime Spreaders they've had for 20, even 30 years. Our special drag chain is 4 times stronger than stainless steel, and handles frozen and heavy stockpiled lime with ease. Plus for spreading compost, composted sludge, poultry litter and certain fertilizers, the WLS is without equal for sheer volume spreading. We call that performance. You'll call it terrific.

We hope you compare a Stoltzfus WLS with other spreaders. It makes us look even better. Price? Sure we may be a little more. But when you end up replacing cheaper units in a few short years, what have you saved? Stoltzfus quality always pays for itself many times over.

Just how tough is a Stoltzfus WLS? Plenty tough. Call today. We'll tell you where to find the dealer nearest you, and send you free literature to inspect.
