December 12, 2002
Report Supplied By USDA

Trucklot buying activity was mostly fair as dealers remained cautious and continued with closely balanced floor stocks. Inclement weather in parts of the Northeast had snarled transportation routes and hampered deliveries in some areas. Offerings of bone-in breasts had increased in availability. Boneless-skinless breasts were at least sufficient. Dark meat cuts were fully adequate. Improved interest was noted on wings. Retail and distributive movement was irregular but usually limited. The market tone was steady to fully steady on wings and about steady on the balance.
