

## Quality 4x6 bales in any crop

The Model 658 All-Purpose baler from New Holland is one durable baler that produces top-quality bales in a wide variety of crops - from dry hay and corn stalks to silage. It's built custom-harvester tough.

- **Endless belts** are backed by Bonded Protection for 3 years or 15,000 bales.
- **Dual-cam pickup** ensures long life in heavy crops.

Check the Model 658 All-Purpose baler today.

## Big balers that are built to last

The BB940 and BB960 are designed for big capacity - year after year. These features make sure you get the job done right.

**InfoView™ baler control system** lets you monitor and control the entire baling process.

**New Holland precompression system** delivers consistent bale density in all crops.

**Extra-wide pickups** handle your widest windrows.

**Roller bale chute folds up hydraulically** for easy one-person transport preparation.

**Optional Bale-Slice™ Crop Cutting System** slices bales for easier feeding.

**Easy maintenance** from flip-up shields, maintenance-free bearings in twine fingers and knotters that are always greased.

BB940	BB960
32"x35"	47"x35"

Put a New Holland big baler to work for you.

## Put quality silage under wraps

New Holland round bale wrappers are the low-cost alternative to traditional silage storage - they seal your silage bales in "mini silos." You can harvest silage during peak feed quality, store it with greater flexibility, and feed it more efficiently with less waste.

Two models offer a side-mounted lifting arm, three-belt turntable, two large side-support rollers, and cable controls. The B37P is available with computer controls.

## The quality hay standard

New Holland® Haybine mower-conditioners set the standard for making quality hay. They're rated #1 in smooth sicklebar cutting and #1 in plug-free conditioning and producing a well-conditioned crop. For reliable performance season after season, choose a genuine Haybine® mower-conditioner from New Holland.
