Herd Dispersal

Wed., Feb. 19, 2003
at 1:30 P.M.

62 Cows

We will be selling on consignment a very good
herd of purebred and grade Holstein milking
cows. All are 1st and 2nd calf heifers with good
feet and legs and very good mammary systems,
with records to 25,000M and several with dams
of 175,000 lifetime and NO BST. This is a very
good chance to add milk to your tank now, as
over half of this herd has been fresh in the last 2
months, or are springing now. Here are a few
examples of the good pedigreed cows that will be
offered

A Hanover Hill Raider 2 year old, dam is a VG
88 Broker

A Broker daughter with a Jethro dam, top record
of 24,571 and the dam has 109,318 lifetime

A Lindy daughter, her dam is a Lincoln, top
record for this cow is 25,122.

These are just a few examples of the good young
cows being offered in this herd This is a herd
that will go home and make milk now and give
you some good type improvements at the same
time

Note: Cows are freestall trained, but tied up to
milk.
