Binkley & Hurst Bros. Inc. announces an unbeatable

**Spring Fling
0% APR**

for up to 60 months financing
on all model Disc Mower Conditioners and Round Balers
There has never been a better time to buy... hurry offer expires March 29, 2003

Binkley & Hurst Bros. Inc. Offers

High-speed, clean-cutting disc technology

**WITH SIMPLE,
RELIABLE DESIGN**

All Gehl disc mower conditioners share these great features

Unlike some competitive units, Gehl's cutterbar is fastened to a heavy-duty tubular main frame for added strength and support. In addition, the entire cutterbar is shielded from rocks or other field obstructions with full-width skid shoes.

The gear-driven cutterbar (outlined in white) is supported and protected

CENTER PIVOT DISC MOWER READY TO CUT YOUR RYE TODAY! CHOOSE A QUALITY GEHL MACHINE FROM BINKLEY & HURST BROS. TODAY! MODEL 2412 DISC MOWER CONDITIONER

Cut Your Fields Down To Size!

Gehl swing-frames give you the capacity and maneuverability of a self-propelled mower conditioner at a pull-type price - plus the advantages of high speed disc cutting technology.

- **Nine disc cutterbar** delivers 11 foot 7 inch cut
- **Wide conditioning rolls** for uniform fast drying
- **Full-width skid shoes** protect the cutterbar
- **Simple drive system** for more reliability
- **Change from windrow to swath** in seconds - without tools

The New Swing Frame Gehl 2412 Disc Mower Is Ready For Delivery

12' Model

Today's Most Advanced Disc Mower Conditioner

GEHL Model 2365

10' Cut In Stock for Immediate Delivery
Model 2345 9 Foot Cut In Stock

Long hood for less wind turbulence for cleaner cutting in thin crop stands. A Gehl disc mower conditioner delivers exceptional cutting and conditioning, even in your most difficult crops and conditions.

Rugged high speed cutting discs spinning at 3 000 rpm easily slice through down and tangled crops or dense wet undergrowth to deliver a clean cut.

The cut crop is delivered to Gehl's specially designed intermeshing rubber conditioning rolls for thorough yet gentle crop conditioning. They'll condition your crop for fast drying.

ONLY FROM GEHL
The gear driven cutterbar (outlined in white) is protected. Gehl shields the cutterbar from rocks or other field obstructions with full-width skid shoes.

Easily replaceable disc drive assemblies. Drive stations can be removed individually for quick servicing. Bearings are sealed in grease. The patented Protectadrive™ system protects the cutterbar gear train from damage in the event of disc contact with major field obstacles.

GEHL MODEL RB 2580 ROUND BALERS

Featuring the ALL-NEW Variable Open-Throat Power In-Feed System

Gehl's power in feed system opens to nearly 7' for large crop volume

GREAT BALING STARTS HERE
Variable Open-Throat Power In-Feed System Here's how it works. The incoming crop is pulled off the pickup by the aggressive action of two power in feed rolls - a 6-inch diameter pivoting power in feed roll on top and an 8-inch diameter fixed power in-feed roll on the bottom.

The top pivoting power in feed roll rides over the crop as it is pulled into the bale chamber. An extension spring keeps the top roll under constant downward force.

The spring tension increases as the variable throat opens from a minimum of 3/4 of an inch up to a maximum opening of nearly 7 inches.

The constant downward force of the pivoting upper powered in feed roll in combination with the fixed lower in-feed roll both turning inward pinches the crop and forces it into the bale chamber. The stripping roll strips crop off the belt and forces it down to the incoming crop. Adjustable scrapers on the stripping roll and pivoting roll eliminate buildup.

THREE-BALL TWINE BOX. Gehl balers are designed to keep you going all day long with six-ball twine storage. They're located in full-size doors that open to provide easy access to baler components like an optional chain oiler system or the Total Density Control adjustments.

GAUGE WHEELS. Allow the pickup to follow field contours while keeping tires out of the dirt. That saves wear and tear on the pickup and means less dirt in your bale. Gauge wheels are standard equipment with the wide pickup and an option with some others.

BELTS. Deluxe balers feature chevron belts (pictured above) with heavy duty, plate-type belt lacing. The belts are 6-1/2 inches wide for closer spacing between belts and less space between the belts and side sheets. Belts are configured in a staggered pattern to minimize trash build-up.
