Discover the productivity advantages of the new Case IH FHX300 forage harvester. This high capacity harvester makes fast work of your corn and hay acres, and quickly turns your forage crops into high-quality silage

Heavy-duty design. The FHX300 was expressly designed for use with high-horsepower tractors — those from 180 to 300 horsepower. The wide, 24 1/2 in (620 mm) that opening swallows your heaviest crops, while the 1000-rpm driveline, heavy-duty components and wide crop heads are made to harness big-tractor horsepower and turn it into high-capacity harvesting performance. You control FHX300 operations right from your tractor seat using electric standard hydraulic tongue swing
