

SLURRYSTORE®

**With our unique 360-degree Bottom Center Agitation
rated at 4,300 gal./minute!**

The chart below shows one of the reasons we feel excellent agitation is so important.

Distribution of Nutrients in Solid and Liquid Portions of Manure:

Liquid	50%	Nitrogen	50%
Solid	5%	Phosphorus	95%
	85%	Potash	15%

Source: Farm Animal Manure
Management Workshops
Proceedings, Univ. of Wisc.

Slurrystore: Manage your nutrients as an asset, not a liability.

The results you may achieve with your Harvestore® System depend primarily upon your management skills and may vary from successful results achieved by others. Any application in a particular farming operation requires the advice of qualified experts and is subject to limitations of good management, weather or other conditions present at the individual location. Harvestore is a registered trademark of Engineered Storage Products Co.
