# XL Series

### Cut-Out Clutch Protection

No more burnt or hot discs to wrestle with. Great protection for those times when your baler's pulling harder on the outside rows, the tractor's overpowered, or you accidentally overfill when trying to bale that last strip of hay

### Here's why:

- 5-bar pickup handles bigger windrows, faster speeds
- Simple, horizontal bale-starting system is designed for fast starts
- Bottom drum design lets you pull in hay faster, often allowing you to drive a full gear faster
- Best HaySaver Wheels in the field.
- Up to 1200 lbs. in a single 65" dia. x 48" wide package; 2000 lb capacity with silage baler option
- Silage option lets you bale wet or dry without changing a thing
- Make bales 17% larger\* than a standard 5' dia. x 4' wide baler at virtually the same price!\*\*

\* determined by comparing volume measurement of a standard 60" dia x 48" wide bale versus a 65" dia x 48" wide Vermeer bale

\*\* Price comparison is based on published list prices (Y2000) between Vermeer 554XL Series Baler and other 5' x 4' competitive round baler models

Check it out!  
**17%**  
more bale size  
than standard 5' x 4' bales
