- Brass ball joints on linkage and brass bushings in latch.
- Overall height is 71 1/2".
- Versatile rack holds any type milking equipment.

Upgrade or expand your current facility & stay in your budget!

Combination Hoof Care/Vet Chute

This highly versatile equipment can be used to secure a cow safely and efficiently for foot care or veterinary services

Side panels and gates easily replace hoof care accessories to create a vet chute where almost any common vet procedure can be performed.

Standard hoof care attachments include: a rear splatter board, rear foot winch, two front foot winches and a full width belly band and winch to lift the animals weight off their feet. All winches have heavy duty friction brakes providing constant, positive holding action

ALL STEEL PARTS ARE POWDER COATED USING THE PBZ FIVE-STEP PROCESS

Once in the chute with the belly band winched into working position, the cow is safely secured for foot treatment.

Loop Stalls

Wide Front

Extra Wide Front

Freedom

Herfer

Wide Front Loop Stalls

Versatile design offers greater cow comfort
Generous lunge space for head & neck between top and bottom of loop.

Heavy duty construction with 2 3/4" outside diameter high yield steel tubing with 12 gauge (108) wall
Spray arc transfer method used on welds

Available in 4', 5', 6'6", 6'9", & 7" Finish protects against rust, chipping, and chemical deterioration

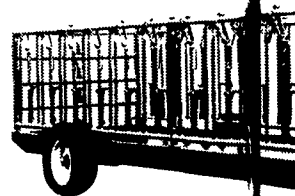

All metal parts are spray arc welded and finished with a durable finish that is resistant to rust and corrosion.
