THE ADVANTAGES OF ROASTED CORN

- * **Earlier Harvest** - Our roaster will dry corn down eight to ten points of moisture.
- * **Higher Digestibility** - Research studies show that roasted corn is more digestible than raw corn. The energy level is increased by 10%.
- * **Purer Feed** - Our flame roaster can effectively remove mold spores and reduce toxin levels that are harmful to livestock, swine and poultry.
- * **Drier Total Ration** - With less fermented feed. Supplementing the hay and corn silage diet with dry corn aids better rumen health.
- * **Greater Profits** - Dairy herds fed roasted corn increase in milk production and improve in herd health.
