## Shorthorn Pacemaker Sires, Dams Announced

OMAHA, Neb. — The American Shorthorn Association (ASA) recently announced animals that qualified as Pacemaker Sire and Pacesetter Dams in 2003.

Pacemaker Sire must have accumulated a minimum of 3,000 PACE Points on at least 10 progeny and must have established EPD values through SPR based on his offsprings' records.

Pacesetter Dam honors are awarded to females that have accumulated 500 PACE Points on at least two progeny with at least one natural calf and must have established EPD's through SPR based on at least one natural calf.

A Pacemaker dam in the Mid-Atlantic region is Armstrong Angie N002, owned by Armstrong Farms, Saxonburg, and Ranco Shorthorns, Bostwick, Fla.

**PIT POWER**

Farmers and composters - Here is a breakdown for compost and manure pits and manure piles! Pit Power is bacteria and bacteria feeders that break down solids in manure pits and septic tanks and breakdown compost faster.

Clean out your pit with ease, use Pit Power! One gallon of Pit Power per 10,000 to 20,000 gal. of pit volume. Should be repeated approx. 2 times a year! If aeration of the pit is possible, it will help the bacteria to grow and work faster to break down solids. Pit Power's purpose is to add life (bacteria) in the manure, which then is returned to the soil where a bacteria is working. The smell of pit manure is not so strong. Pit Power is a non-toxic product - Life to Feed Life!

Price is **\$58.00** per gallon  
 (6 gal or more - \$55 per gallon) Full UPS fee will be charged if payment is not with order. Send orders to
