New Case IH FHX300
TOP-CAPACITY
HARVESTING

Discover the productivity advantages of the new Case IH FHX300 forage harvester. This high capacity harvester makes fast work of your corn and hay acres and quickly turns your forage crops into high-quality silage

Heavy-duty design. The FHX300 was expressly designed for use with high-horsepower tractors — those from 180 to 300 horsepower. The wide, 24 1/2 in. (620 mm) that opening swallows your heaviest crops, while the 1000-rpm driveline, heavy-duty components and wide crop heads are made to harness big-tractor horsepower and turn it into high-capacity harvesting performance. You control FHX300 operations right from your tractor seat using electric standard hydraulic tongue swing

BETTER-BUILT BALES
FROM THE
BETTER-BUILT BALER

Put one of the new Case IH SBX Small Square Balers in your field and you can expect a non-stop supply of solid, stackable, tied-to-last bales

The smallest 14x18 in. (356x457 mm) model the SBX520 is a rugged, durable baler that will provide years of dependable service. It uses six feeder tines to move crop smoothly and gently from the 65 in. pickup (70 in. with flare) pickup into the baler chamber

(2) SBX 520 Balers
