

"I always wanted a Harvestore® for my haylage."

LeRoy Weaver Strasburg, PA

Last year LeRoy Weaver built a 62x14 Slurrystore® System to end the chore of daily manure hauling. The photo above shows his newest addition, a 20x70 Harvestore, under construction with his rye crop curing in the foreground. At right is LeRoy and son Gary in front of the structure, which was completed May 1.

The results you may achieve with your Harvestore® System depend primarily upon your management skills and may vary from successful results achieved by others. Any application in a particular farming operation requires the advice of qualified experts and is subject to limitations, of good management, weather or other conditions present at the individual location. Harvestore is a registered trademark of Engineered Storage Products Co
