K Announcing:
Crude Soy Oil Now Available
With the addition of our new soybean processing facility,
we now offer soybean oil as an animal nutrition product.
Processing the soybeans ourselves allows us to utilize
locally grown soybeans and support our local agricultural
community!

Crude Soybean Oil
A product of Keystone's expelling process, this oil can be used in a wide
variety of on farm applications. Crude soy oil is a natural alternative to
animal fats and provides needed energy in various rations.

Uses of Crude Soy Oil Include:

- Use as a high energy feed ingredient in swine and poultry diets.
- Especially useful in sow lactation diets, pig starter and grow/finish diets.
- Used as an added energy source in broiler, turkey and layer feeds.
- Can be used for dust control purposes.
- Can be used as a lubricant for feeding systems.

Advantages of Crude Soy Oil:

- Use as a direct replacement for animal fat.
- Vegetable based product.
- Holding tank does not need to be heated if temperature is above 30 degrees, which reduces storage and handling costs compared to animal fat.
- Bulk delivery, partial loads available direct to farm by Keystone Mills.
- Customer may pick up to save delivery costs.

Other Soy Products Available:

- Keystone offers Golden Pro 46 XP which is 46% protein - 6-7% oil, Golden Meal 40 which is 40% crude protein with 18% oil.
