Farming Forecast

The weather will remain unsettled through the rest of the holiday weekend and into early this week. There will be some rain on occasion. Rain will be spotty. A break from the wet weather may occur Wednesday and Thursday. Another system may arrive for the end of the week with more wet weather. Temperatures will be mainly in the 60s and lower 70s during the day and in the 40s at night.

Dandie says... Prepare for Summer and Dry Weather

BMR Sorghum Sudans & More

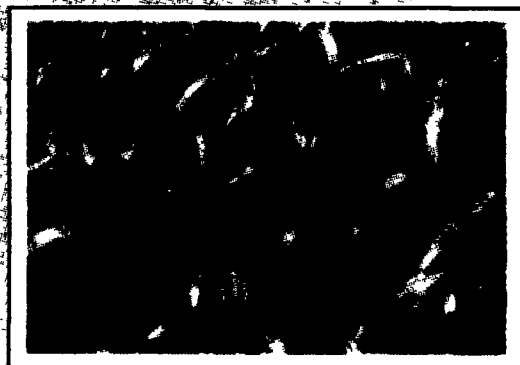

Drought Tolerance & Super Quality Combined

Hybrid Pearl Millet

Mega-Mil - Prussic acid free. Safe for horses. Better than sorghum sudans on light soils and tolerates lower pH soils. Excellent forage quality similar to our BMR sorghum sudans.

Forage Sorghum

Millennium BMR - Corn silage alternative. Requires 2/3 the water of corn. Virtually equal to average corn silage in energy, but has higher sugar and protein. Can be planted with corn.

Sorghum Sudan

BMR Sorghum Sudans

Our BMR varieties contain 35-40% less lignin than conventional varieties, resulting in super digestibility and performance. Ready to cut in about 40 days. Similar energy to corn silage, but twice the protein.

- **Century BMR** - Time tested product. Great for double crop programs. Heads in 80-85 days.
- **Summer Queen BMR** - Limited supply. For full season production without heads.
- **Summer King BMR** - New lower cost product. Heads in about 60-65 days.

Helping the family farm prosper by specializing in high quality forages and grazing since 1993.
