

BETTER SEED PLACEMENT THAT'S PRECISELY THE POINT

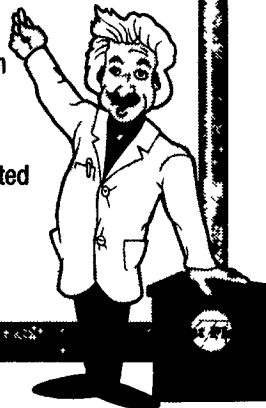

- Great Plains Precision Seeding System Plants Corn, Soybeans and Small Grains
- Gives you the ability to singulate seed in the furrow while dramatically increasing seedbox capacity over traditional hopper-style planters
- The SingulatorPlus Meter™ sits directly on top of the double disc opener, and once the meter releases the seed, it has less distance to travel thus ensuring more accurate seed placement.

15' and 20' Widths Now In Stock!

Before you buy your next planter or drill, consider the following facts:

- ▶ If you overpopulate with either a planter or a drill, you increase your seed cost and decrease yields.
- ▶ Only Great Plains meets or exceeds planters on depth control and seed-to-soil contact for even emergence and maximum yield.
- ▶ Drilled beans canopy up to 3 weeks earlier than planted beans, dramatically reducing chemical cost.
- ▶ The earlier canopy of drilled beans saves precious moisture that can make or break a bean crop.

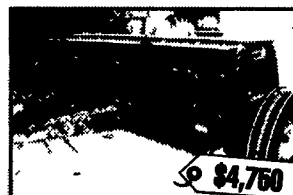

USED DRILLS

NO.	MAKE	DESCRIPTION
A 25659	CIH	5100
C 32374	CIH	5100 18x7 Conv Drill 7" Spacing, 3x13 Press Wheels, Cylinder & Hoses

\$14,800

Krause PRO-System Grain Drills Continuing the Long Line of Dependable Krause Products

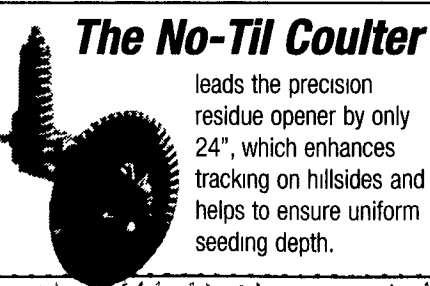

Krause has been engineering dependable equipment since 1916 when Henry Krause built his first one-way plow. The dependability and reliability that you've come to expect from Krause is also found in the line of Krause PRO-system drills from Hooper.

**Hooper has 13' Krause PRO-System Drills
In stock and ready for quick delivery!**

- Krause 5250 Series 13' PRO-System NT Grain Drills**
- ▶ Staggered Rows
 - ▶ 3"x13" Press Wheels
 - ▶ 3/4" Fluted N/T Coulters
 - ▶ Small Grass Seed Attachment
 - ▶ Acre Meter

The No-Til Coulter
leads the precision residue opener by only 24", which enhances tracking on hillsides and helps to ensure uniform seeding depth.
