Galvanized or Galvalume?

For metal roofing and siding, which is better, painted Galvanized or painted Galvalume? Galvanizing is many times better if it's mill certified G100. Why is it better? Galvanizing tends to "heal" when scratched. The more galvanizing, the better. Everlast is ten times better at "healing" than galvalume because galvalume hardly "heals" at all when scratched. Also cut edges rust quickly on galvalume.

Everlast Roofing, Inc, 239 N. 5th Ave., Lebanon, PA 17046.
