Patz
Silo Unloaders

Get the Polar Claw Advantage

Quickly loses its feed and moves it toward blower

Lasts longer than augers, and is easily replaced

Leaves very little loose material on surface

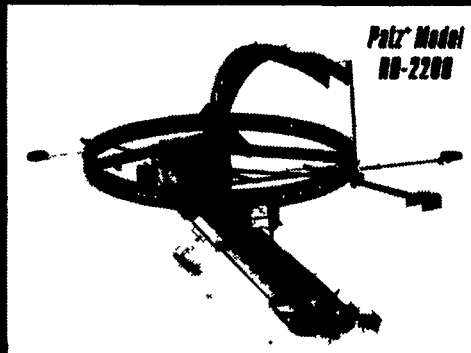

Optional stainless steel blower on model 98C

All parts go up the chute on model 98C

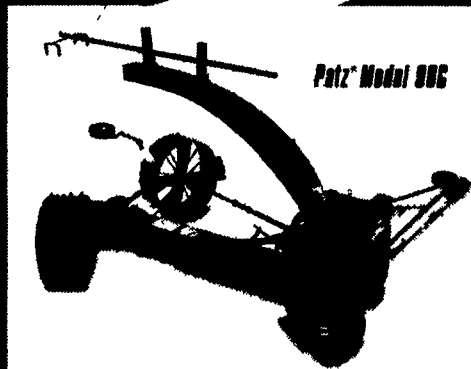

Optional center distributor on model RD 2200

Unique chopper design keeps silo wall clean
in coldest weather

Built for many years of service... many PATZ
unloaders operating today are over 30 years
old. New parts interchange with old.
