1997 Genie 20/8 lift. Unique machine designed to reach over obstacles in tight areas. Will fit into tight spaces like a small scissors lift but also has 8 feet of horizontal reach like a small boom lift. Jib boom rotates left and right. Unit drives when fully elevated. This is a great machine for tight industrial applications. Platform height is 20 feet so you can reach 26 feet. Nice condition with new batteries and a 30 day warranty.
