National Broiler
Market At A Glance

Atlanta, Ga.
July 1, 2003
Report Supplied By USDA
Trade sentiment was steady to fully steady in the East, generally steady elsewhere. Retail demand was light to moderate, best for features and where holiday and first of the month needs were being met. Food service was light to fairly good, best for fast food, delis, and catering services. Supplies were overall sufficient, but in the East, heavy birds were close to tight, and smaller sizes were in the best balance in the West. In the parts structure, trading increased to fill orders for July 4th. Wings were fully adequate to plentiful and slow to move. Availability for the remaining items was mixed, but had decreased and moved into a better balance to tight position. In production areas, live supplies were moderate. Weights were in a full range, but mostly desirable.
