

You Ask We Answer

This column is for readers who have questions but don't know who to ask for answers. "You Ask-You Answer" is for non-cooking questions. When a reader sends in a question, it will be printed in the paper. Readers who know the answer are asked to respond by mailing the answer, which will then be printed in the paper. Questions and Answers to

this column should be addressed to You Ask-You Answer, Lancaster Farming, P.O. Box 609, Ephrata, PA 17522. Attention: Lou Ann Good. Or, you may e-mail questions and answers to LGOOD.EPH@LNPNEWS.COM. Please clarify what question you are answering when responding. Do not send a self-addressed, stamped envelope for

a reply. If we receive the answer, we will publish it as soon as possible. Please include your phone number because we sometimes need to contact the person to clarify details. We will not publish your phone number unless you request it. However, if your question requires someone to

Big balers that are built to last

The BB940 and BB960 are designed for big capacity - year after year. These features make sure you get the job done right:

InfoView™ baler control system lets you monitor and control the entire baling process

New Holland precompression system delivers consistent bale density in all crops.

Extra-wide pickups handle your widest windrows

Roller bale chute folds up hydraulically for easy one-person transport preparation.

Optional Bale-Slice™ Crop Cutting System slices bales for easier feeding.

Easy maintenance from flip-up shields, maintenance-free bearings in twine fingers and knotters that are always greased.

32"x35"	47"x35"

Quality 4x6 bales in any crop

The Model 658 All-Purpose baler from New Holland is one durable baler that produces top-quality bales in a wide variety of crops - from dry hay and corn stalks to silage. It's built custom-harvester tough.

- **Endless belts** are backed by Bonded Protection for 3 years or 15,000 bales
- **Dual-cam pickup** ensures long life in heavy crops

Put quality silage under wraps

New Holland round bale wrappers are the low-cost alternative to traditional silage storage - they seal your silage bales in "mini silos." You can harvest silage during peak feed quality, store it with greater flexibility, and feed it more efficiently with less waste.

Two models offer a side-mounted lifting arm, three-belt turntable, two large side-support rollers, and cable controls. The B37P is available with computer controls.
