**Silage Spreaders with a Heritage of Quality**  
 Lancaster Level-Flo has been the leader in non-motorized silage spreaders for more than 25 years. Each spreader is specifically designed to meet the needs of the individual operator.

Choose the spreader that best matches the equipment you use to fill your silo.

The Model 1030 Multi-Flo® is our standard silage spreader. With a 9" gooseneck, it is designed for average capacity blowers and silo sizes.

The Model 1200 Multi-Flo® has a 12" wide gooseneck. Its larger size all but eliminates plugging problems, even when you blow in haylage. It is especially helpful in larger silos.

The BlueMax® is built for those who push high-capacity silo filling equipment to the limit. All parts of the BlueMax® subject to wear are made 25% heavier - and the stainless steel plate is twice as heavy. For strength, there are reinforcements all around. Even our well-known non-binding hinge is heavier.

For more information or the location of the Lancaster dealer nearest you, call today **1-800-635-8708**.
