

# SLURRYSTORE®

Slurrystore tanks with over 4.5 million gallons of capacity are available, providing for 6, 9, or more months of manure storage. Nutrient retention is maximized and you can apply the manure back to the soil on your schedule and be less dependent on the weather.

The results you may achieve with your Harvestore® System depend primarily upon your management skills and may vary from successful results achieved by others. Any application in a particular farming operation requires the advice of qualified experts and is subject to limitations of good management, weather or other conditions present at the individual location. Harvestore is a registered trademark of Engineered Storage Products Co.
