WALLEYE PIKE

Although some years we sell large walleyes, it's best to start with fingerlings, as they get acclimated readily to your water. Walleyes will do well in water from six feet deep and up. Stock fingerlings in your deepest water as the walleye is a low-lying fish, the larger fish will have no chance to pick them up. These fish will grow to three to five pounds in no time. Where a pond contains a lot of stunted broam try some of our walleyes as they are a more aggressive predator than the bass family. Broam four to five inches and over cannot be eaten by the bass due to the spines, whereas the walleye can feed on them producing larger Blue Gills cutting down their crowded conditions. Walleyes are one of the best eating fish you can buy.

WAYS WE CAN SHIP: Depending on the distance and the type of fish, we can ship by Our Trucks, Air Freight, Air Mail Parcel Posts, UPS, Second Day Air UPS, or Next Day Air UPS. We ship the best way and the cheapest way for the customer.

1-2" \$65 per 100
2-3" \$85 per 100
