

Wendell Yoder

Meyersdale, Somerset County

After a tornado destroyed the cow barn in 1998, Wendell and Darlene Yoder had it rebuilt and kept on dairying. The Yoders intensively graze the milking herd of 60-plus cows on up to 70 acres of grassland, depending on growing conditions. Pastures consist mostly of orchardgrass and reed canary grass. They also grow 25 acres of corn for

silage. Altogether, the Yoders own about 200 acres of rolling land among the mountains here.

The Yoders have four children: Chris, 19; Jennifer, 18; Rachel, 15; and Tim, 12.

MUELLER
DAIRY FARM EQUIPMENT

Having Problems Getting Milk Cold?

Consider a Mueller pre-cooler. It's an excellent way to lower the cost of cooling milk. It reduces milk temperature with water pumped straight out of your well. Mueller® precoolers are available in sizes to work with any system. If lower electric bills would make your life easier, call us and ask for more information on Mueller precoolers.
