# Cimarron SR

## ALFALFA SR

**Top Forage Quality**  
Cimarron SR produces larger leaves than other alfalfa varieties. (See photo right.) And it holds its leaves better in the field and in the baling process. The result is a leafier hay with higher protein and TDN. Break open a bale of Cimarron SR, and you can see the difference.

**High Yields - Long Stand Life**  
Cimarron SR is producing excellent yields in the Penn State trials. And unlike other alfalfa varieties Cimarron SR was bred on the East Coast, so it stands up well under the difficulties of Eastern conditions. You can count on Cimarron SR for long stand life and top productivity.

**Sclerotinia Resistance**  
Sclerotinia crown rot is a significant problem for alfalfa growers on the East Coast. Cimarron SR provides the protection against sclerotinia that growers need.

**Weevil Tolerance**  
Cimarron SR's unique alfalfa weevil tolerance reduces weevil damage by 50%. In a heavy infestation spraying can be cut in half. In lighter infestations, spraying can be avoided altogether.

Ask Your Dealer For Cimarron SR  
Or Call WETSEL, INC. For The Dealer Nearest You
