FORAGE HARVESTER & 600
FORAGE BLOWER
In Stock!
New Case IH FHX300
TOP-CAPACITY
HARVESTING**

Discover the productivity advantages of the
new Case IH FHX300 forage harvester. This
high capacity harvester makes fast work of
your corn and hay acres, and quickly turns
your forage crops into high-quality silage

**Lots of Features To Bale Your
Crop The Way It Should Be!
Equipped with Packer Cutter
& Stuffer**

The LBX331 packer cutter option allows
you to use between two and six knives to
adjust crop length from 4 5 to 10 5 in. You
move the knives in and out of cutting
position hydraulically from the tractor cab.
Bale made with one of the Case IH pre-
cutting systems are easier to break apart,
mix and feed and easier for livestock to
digest. Using a cutting system also
makes straw bales easier to spread and
increase the straw's absorbency when
used for livestock bedding.

Hitch**

**Heavy-duty design. The FHX300 was
expressly designed for use with high-horse-
power tractors — those from 180 to 300 horse-
power. The wide, 24 4 in (620 mm) that open-
ing swallows your heaviest crops, while the
1000-rpm driveline, heavy-duty components
and wide crop heads are made to harness big-
tractor horsepower and turn it into high-capac-
ity harvesting performance. You control
FHX300 operations right from your tractor seat
using electric standard hydraulic tongue swing.**

**BETTER-BUILT BALES FROM THE
BETTER-BUILT BALER**

SBX520 with Thrower

Put one of the new Case IH SBX Small
Square Balers in your field and you can
expect a non-stop supply of solid stackable
tied-to-last bales

The smallest 14x18 in (356x457 mm) model the SBX520 is a rugged durable baler that will
provide years of dependable service. It uses six feeder lines to move crop smoothly and gen-
tly from the 65 in pickup (70 in with flare) pickup into the baler chamber
