- Ceiling systems designed for your dairy, swine, and poultry facilities, as well - as shops, warehouses, garages, arenas, and more.

Tired of working in a cold, noisy shop?
 These ceiling systems are designed to hold any amount of insulation, and with insulation above, produce sound reduction qualities much greater than steel.

Is the banding in your hog or poultry barn deteriorating?
 Let us replace them with our heavier polyester bands which do not stretch or become brittle over time.

Are you frustrated with the birds in your implement shed?
 Get the problem under control with a triply ceiling, as well as greatly improving the lighting.

Contemplating a drop ceiling?
 Demand a triply ceiling above your drop ceiling if there is insulation being installed. This will serve as a vapor barrier along with permanently preventing falling insulation.

Providing the Ag industry with a very durable, attractive, waterproof, noncorrosive, alternative to conventional ceilings at a fraction of the cost.
From 20¢/Sq. Ft. Installed
