**The Replogle Family of Three Spring Run Farm in New Enterprise, PA has been farming with the Harvestore® System since 1971, when their first 25x80 Harvestore was built. (The original Goliath® unloader from 1971 was replaced with a new Alliance® in 1998). When they built their 62x14 Slurrystore® in 1975, they were looking to the future. Recently they doubled the size of their Slurrystore to 62x28, increasing their manure storage capacity from 316,418 gal. to 622,378 gal., to accommodate their present needs.**

The results you may achieve with your Harvestore® System depend primarily upon your management skills and may vary from successful results achieved by others. Any application in a particular farming operation requires the advice of qualified experts and is subject to limitations of good management, weather or other conditions present at the individual location. Harvestore is a registered trademark of Engineered Storage Products Co.
