

Zimhaven Farms

Farming with Harvestore® since 1967

Harvestore pioneer D. Martin Zimheimer of Lancaster Co., PA put up two of the first Harvestore structures in the county, a 20x50 for haylage and a 20x30 for high moisture corn because he wanted the best possible feed for the dairy herd. In their continuing quest for the best, the Zimmermans recently had Penn Jersey erect a 20x60 Harvestore to replace one built by an unauthorized dealer that did not live up to their expectations. The picture at left shows Martin with son Dale, Dale's wife Barb and their sons Jeremy, left, and Jordan.

The results you may achieve with your Harvestore® System depend primarily upon your management skills and may vary from successful results achieved by others. Any application in a particular farming operation requires the advice of qualified experts and is subject to limitations of good management, weather or other conditions present at the individual location. Harvestore is a registered trademark of Engineered Storage Products Co.
