**Rake Small Stones & Rocks into a Windrow**

Ready For The Picker or Stone Fork

In the Degelman tradition of quality rock removal equipment, here is the RR1500 rock rake, another example of Degelman's continuing commitment to excellence.

The RR1500 rock rake includes a unique auto-fold system which provides safe, easy transport no wider than most tractors (8 feet in transport position) with full use of the 14 foot width in the working position. And with hydraulic angling, it can take full advantage of the 10 to 30 degree angling range.

Degelman Rock Rakes are excellent machines for grooming fairways and conditioning soil for the construction of golf courses. It leaves a beautiful final finish preparing the course for seeding. They are also used for reclaiming gravel on gravel roads. And the heavy duty construction and quality workmanship means that it is built to last.
