**Metal Roofs aren't Created Equal**

**Everlast II is better:**

- it is galvanized heavier like old times
- it is heat formed, less paint cracks
- is cut while hot, prevents early edge rust
- won't scratch as easy paint is harder
- won't bend or buckle as easily, stronger design
- laps are tighter, and virtually invisible
- nails never seal better, ribs fit tighter to head
- zinc phosphate, not chromate under paint
- still priced about the same or less
- picked up or deliver from Lebanon plant

**Everlast II** is excellent for houses and barns.  
**Standing seam** is ideal for houses
