SCHNUPP'S

**ROASTING IS SUPERIOR TO OTHER
METHODS OF HEAT PROCESSED GRAIN**

~ IT'S ECONOMICAL - The cost to operate a flame roaster is lower than other types of processing equipment. This makes roasting grain a more efficient method.

~ IT PURIFIES - Only a flame roaster can effectively remove molds and reduce toxins to tolerant levels. As the individual grain rotates through the open flame, the mold dust around it is destroyed.

~ IT'S UNIFORM - Having the grain pass through the open flame and properly steeped, gives it a uniform treatment.

~ IT'S PROFITABLE - Custom roasting on your farm

* Gives you the ability to feed your own grain, not someone else's

* Eliminates trucking expenses

* No mill charges - shrinkage, storage and handling

* When grain needs to be purchased, you can have it roasted on your farm and know how it is processed
