Lots of Features To Bale Your Crop The  
Way It Should Be!

Equipped with Packer Cutter & Stuffer

The LBX331 packer cutter option allows you to use between two and six knives to adjust crop length from 4.5 to 10.5 in. You move the knives in and out of cutting position hydraulically from the tractor cab.

Bale made with one of the Case IH pre-cutting systems are easier to break apart, mix and feed and easier for livestock to digest. Using a cutting system also makes straw bales easier to spread and increase the straw's absorbency when used for livestock bedding.

Density Control, optional Work Lights, Knotter Fan to Keep Dirt Away from Knotters, 1 3/8" 1000 PTO, Minimum Hp Required 110 HP
