Buchanan FFA Team Places First In Dairy Judging

MERCERSBURG (Franklin Co.) — The James Buchanan FFA dairy judging team won first place in the Eastern States Dairy Judging competition at the "Big E" in Springfield, Mass. They judged five heifer classes consisting of Holsteins, Ayrshires, and Milking Shorthorns, as well as a Holstein cow class. They then gave reasons defending their placings for an Ayrshire

yearling class. They also had two sire selections to complete, a pedigree analysis, a dairy knowledge test, and a team activity.
Team members are Aaron Horst, John Fisher, and Meagan Meyers. Aaron Horst placed first in individual judging and Meagan Meyers placed ninth. During their trip, they toured the Eastern States Exposition Center, and fortified their knowledge and exposure to the dairy industry.

LOST STREAM MAP

The STREAM MAP OF PENNSYLVANIA was completed in 1965 after a thirty-year effort by Howard Higbee, a former Penn State Professor

The map is known as the LOST STREAM MAP to some anglers

Professor Higbee succeeded in creating a map of the highest detail possible - a map that shows every stream and lake. He painstakingly plotted by hand the location of 45,000 miles of streams onto a 3 by 5 foot map

The map sold extremely well - until it was lost several years later. Incredibly, the printer entrusted with the original drawing and printing plates declared bankruptcy, then carelessly hauled Higbee's 30 years of work to a landfill.

The few remaining dog-eared copies became a prized fisherman's possession. Professor Higbee was offered \$400 for one of his last maps. And state agencies were forced to keep their copies under lock and key.

Experts told Professor Higbee that reprints were impossible, because the maps were printed in non-photographic blue.

Then, in 1991, at the age of 91, Howard Higbee's dream came true. Computers made it possible to reprint the map. Howard said, "I never thought I'd live to see this day."
