Do You Suffer From Fibromyalgia?

When I was introduced to New Image I was 50 pounds over weight and suffered from fibromyalgia I was so depressed and in pain the majority of the time. I was taking steroids and four other medications, one of which made me so 'groggy' I could hardly get out of bed and another gave me ulcers. I began taking New Image secretly because I thought my family would make fun of me. After a month, I discovered I had lost eight pounds and seven inches. Wow! Then it dawned on me, I was feeling better, the depression and pain were gone. In two months I was off all medications. "I feel SUPERIFIC!" Now, two years later I have lost 43 pounds and 30 inches. Thank you New Image for giving me a new life again.

LOST STREAM MAP

The STREAM MAP OF PENNSYLVANIA was completed in 1965 after a thirty-year effort by Howard Higbee, a former Penn State Professor.

The map is known as the LOST STREAM MAP to some anglers

Professor Higbee succeeded in creating a map of the highest detail possible... a map that shows every stream and lake. He painstakingly plotted by hand the location of 45,000 miles of streams onto a 3 by 5 foot map.

The map sold extremely well—until it was lost several years later. Incredibly, the printer entrusted with the original drawing and printing plates declared bankruptcy, then carelessly hauled Higbee's 30 years of work to a landfill.

The few remaining dog-eared copies became a prized fisherman's possession. Professor Higbee was offered \$400 for one of his last maps. And state agencies were forced to keep their copies under lock and key.

Experts told Professor Higbee that reprints were impossible, because the maps were printed in non-photographic blue.

Then, in 1991, at the age of 91, Howard Higbee's dream came true. Computers made it possible to reprint the map. Howard said, "I never thought I'd live to see this day."
