Metal Roofs aren't Created Equal
Everlast II is better:
• it is galvanized heavier, like old times
• it is heat formed, less paint cracks
• is cut while hot, prevents early edge rust
• won't scratch as easy, paint is harder
• won't bend or buckle as easily, stronger design
• laps are tighter, and virtually invisible
• nails/screws seal better, ribs fit tighter to head
• zinc phosphate, not chromate under paint
• still priced about the same or less
• picked up or deliver from Lebanon plant
Everlast II is excellent for houses and barns.
Standing seam is ideal for houses.
